

AUSBAFFLES™

AUS BAFFLES™

innovative – creative – experienced

AUS BAFFLES™

Aus Baffles™ are not only a cost-effective way of controlling sound, their endless shape and colour options also provide excellent scope for a variety of design solutions. Aus Baffles™ are particularly effective at absorbing direct energy from both the sound source and the reflection off the ceiling, as both faces are exposed.

In rooms where wall surfaces may not be available to mount acoustic panels, suspending baffles from the ceiling provides an effective alternative. Baffles are a popular choice in large commercial installations where architects are looking to combine acoustic benefits with a design feature.

- Extensive range of panel sizes
- Custom panel sizes and shapes available
- Extensive range of colours
- Weight: 5000 grams per square metre +/- 10% 24mm

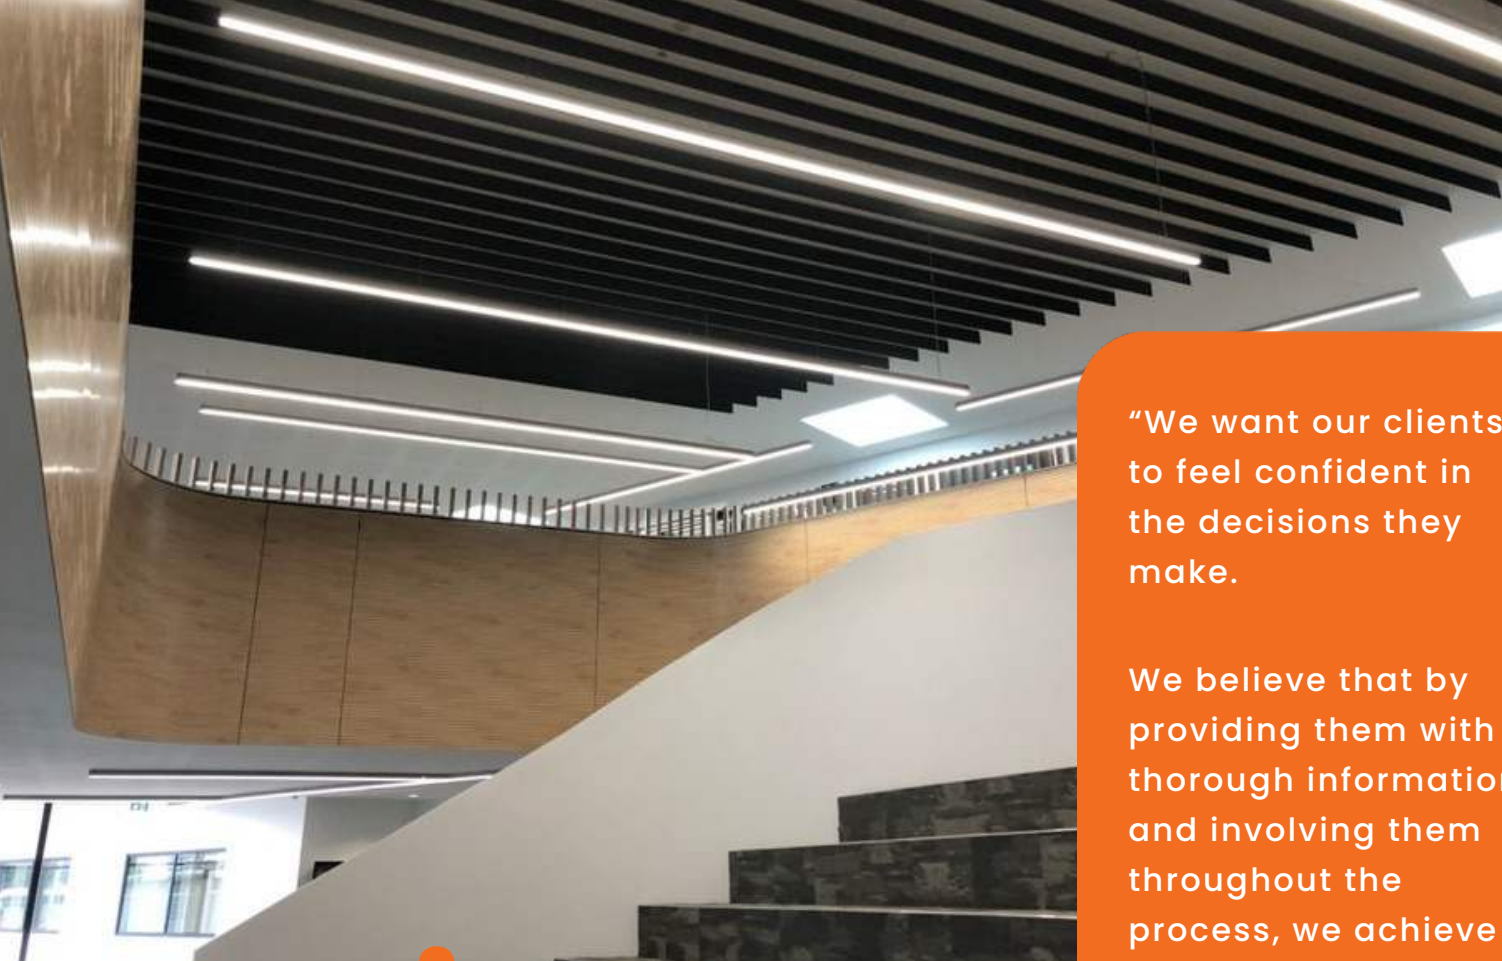

APPLICATIONS

Suitable for a variety of applications such as:

- Internal acoustic baffles
- Ceilings for offices, sporting venues, libraries or auditoriums

STANDARDS AND TESTS

- Group 1 Fire rated to Australian Standard
- ISO 9705-2003 ISO 9001 and ISO 14001 certified
- Quality and Environmental NRC (noise reduction co-efficient)

"We want our clients to feel confident in the decisions they make.

We believe that by providing them with thorough information and involving them throughout the process, we achieve this goal".
