AUS SLAT™

Aus Slat™ is a configuration of timber slats, mounted to a slotted durable Medium Density Fibreboard (MDF) backing panel with acoustic lining. Aus Slat™ can be used with our acoustic backing fabric or insulation of your choice, to assist in maximising noise reduction and improving the acoustic properties of your chosen area.

- Extensive range of solid timber & veneer finishes
- Concealed fixings for a seamless look
- Custom sizes available
- Extensive range of panel sizes and thicknesses

BENEFITS

- Improved acoustics of your chosen area
- Australian made product
- Available in a range of different styles, sizes and finishes
- Group 1 to Group 3 Fire rated to Australian Standard ISO 9705-2003

APPLICATIONS

Suitable for a variety of applications such as:

- Internal acoustic walls
- Internal acoustic ceilings
- Decorative walls and ceilings in hallways, offices, sporting venues, libraries or auditoriums

"We want our clients to feel confident in the decisions they make.

We believe that by providing them with thorough information and involving them throughout the process, we achieve this goal".
